

During your week in Intake you have been given quite a bit of information. Friday you will be assigned a quiz that will help us to know that you have gotten the “basics”. You will take this quiz in Quiz Star, a program that will be used throughout the year to submit work samples each month. Use this intake quiz to orient yourself to the Quiz Star program and to show what you know to this point.

Logging into Quiz Star

Each student has an account in QuizStar. The username is the student’s first name followed by their student id number. There are no spaces or apostrophes in the usernames.

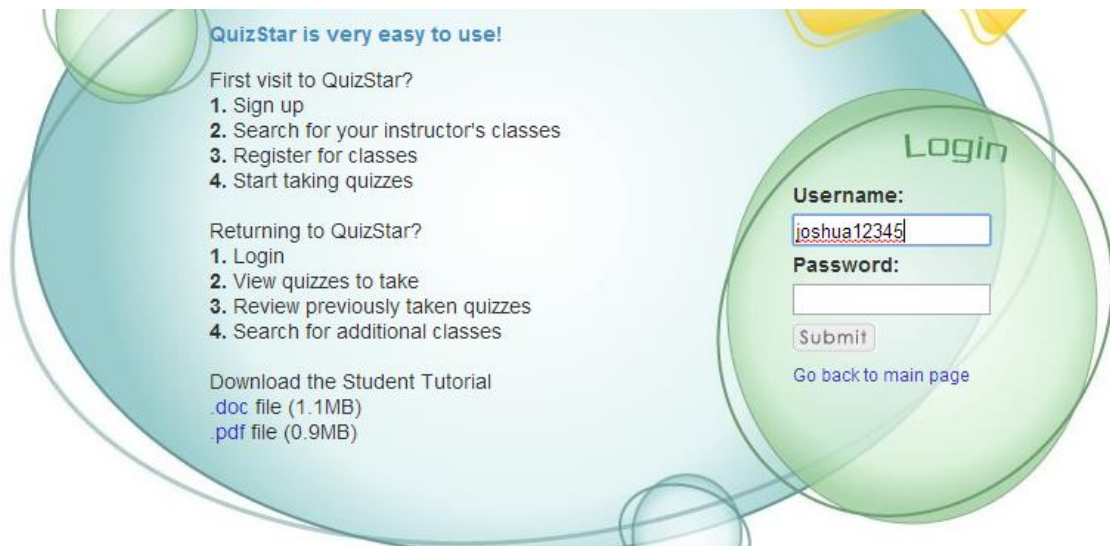

Examples: Joshua123456, D’jae123456 = Djae123456, Mary Jane123456 = MaryJane123456

The **password is k12texas**.

QuizStar is located at the following web address:

<http://quizstar.4teachers.org/index.jsp>

Students should use their login information to enter the site.

Once the student is logged in to the site they will be able to access their assigned quizzes.

TXVA 8th Grade

1 Untaken Quizzes

0 Started Quizzes

0 Expired Quizzes

- **Untaken Quizzes** are quizzes that have not yet been taken.
- **Started Quizzes** are quizzes that have been taken but which have attempts remaining and are still available for review.
- **Expired Quizzes** are quizzes which have no remaining attempts or which have reached the deadline, but which are still available for review.

Students will only get one attempt on each test in Quiz Star. Please let your students know that they will need to take their time and complete the test on the first attempt. If a student moves rapidly through the test it will spoil the test. Students are encouraged to take their time when testing.

If you have any issues with logging on to QuizStar, please contact the intake team.

We are so glad to have you with us this year, you chose us to partner with us to help your child grow academically.

Sincerely,

K12 Texas
